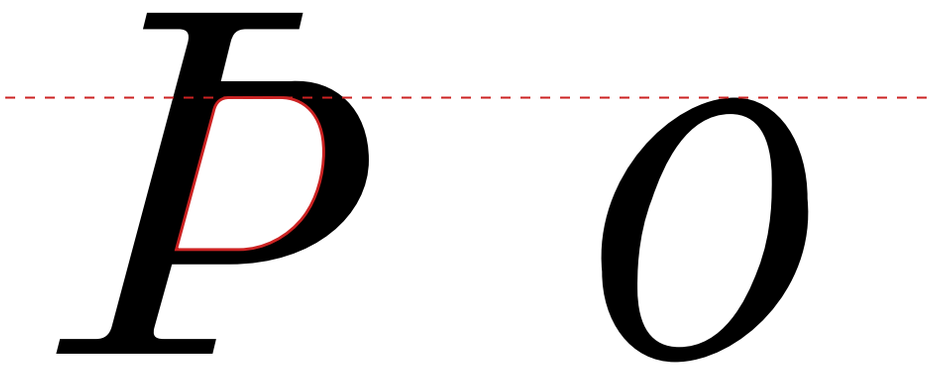
Italic Þ — counter mistaken for an alignment edge

2026-10-25 · Source outlines unchanged · TrueType before / corrected audit and hint controls



1077: Þ counter top = o.sc outer top

A shared coordinate does not make the counter an alignment zone.

Old report: 7 sizes in v35; 11 sizes in v40.

Actual separation: about one pixel, not 7–11 pixels.
